

TECHNICAL DATA SHEET

Product code: 5264 Sector: Motorsport/Commercial

Issue No: 3

Issue Date: 05/07/22

HI-MOL 20 GREASE

Specialised competition grease based on lithium soap and 20% molybdenum disulphide.

Application

Use as received. Suitable for high performance passenger car, light commercial vehicle (LCV) and heavy goods vehicles (HGV).

Ideal for constant velocity joints and highly loaded sliding spline drive shafts.

Typical Characteristics

NGLI Grade	2
Solids Content	20%

Features & Benefits

- Very high molybdenum content versus normal black greases.
- Proven in competition over many seasons.
- Ideal for highly loaded constant velocity (CV) joints in motorsport applications.
- Eliminates sliding spline binding under high acceleration loads.
- The high molybdenum disulphide content provides a high load carrying capability making the product suitable for other high load applications.
