

TECHNICAL DATA SHEET

Product code: 5639

Sector: Industrial

Issue No: 3

Issue Date: 30/05/22

TAPCUT FLUID

A tapping fluid based on a carefully balanced blend of mineral oils, an extremely active E.P. agent and lubricity enhancers.

Application

Use as received for drilling, tapping and reaming where a fluid lubricant is required. Compatible with high alloy steels and all non-ferrous metals.

Features & Benefits

- Lubricant clings to metal surfaces even at high speeds.
- Enhanced efficiency generated from the excellent activity available from the additive system. Product proved to be suitable for certain broaching applications (horizontal) and general drilling, tapping and reaming.

Typical Characteristics

| | |
|---------------------------------|---------------------|
| Density @ 15°C, g/ml | 1.14 |
| Kinematic Viscosity @ 40°C, cSt | 185 |
| Appearance | Brown Viscous Fluid |
