

Product code: 5264 Sector: Motorsport/Commercial

Issue No: 3

Issue Date: 05/07/22

HI-MOL 20 GREASE

Specialised competition grease based on lithium soap and 20% molybdenum disulphide.

Application

Suitable for highly loaded constant velocity joints (CV) in motorsport applications.

Typical Characteristics

NGLI Grade	2
Solids Content	20%

Features & Benefits

- Very high molybdenum content versus normal black greases.
- Proven in competition over many seasons.
- Eliminates sliding spline binding under high acceleration loads.
- The high molybdenum disulphide content provides a high load carrying capability making the product suitable for other high load applications including commercial vehicle applications.
